

Yarrabilby Hop Rogaine - Covid 19 Adjustments Summary

To be allowed to run the Yarrabilby Hop Rogaine, we must adhere to the following rules. While some of the rules may feel silly (particularly given there have been minimal cases in QLD in the last month), we must follow them to show that Rogaining is a part of the solution to Covid 19, not a part of the problem. Victoria shows what can happen when rules aren't followed.

Prior to the race

- 1) We support use of the Covid Safe App.
- 2) No registrations on the day. Registrations must be 48 hours before race start.
- 3) Minimise Carpooling. One car per person/household where possible.
- 4) Fill in the waiver form online prior to arriving.
- 5) Full refund for anyone deciding not to race at the last minute due to feeling unwell.
- 6) Do not turn up if you are feeling unwell or have visited a recognised [hotspot](#).

Race Preparation

- 7) Upon arrival set up your chairs and tables near your car. Ensure 1.5 metres between all people (excluding those from the same household).
- 8) If you have a question for the organisers, call me on 0404 442 848. If you need to approach a volunteer, please keep 1.5 m away.
- 9) Map handout. Maps will be widely spread out. Only one person per team with 1.5 m gaps.
- 10) Race briefing will be electronically given. Novice briefing will be electronically given.
- 11) Race start will be spread out on the grassed area around HQ. If the race director can clearly see you, you are legal.

Racing

- 12) First checkpoint. Often there is a queue at the first checkpoint. Ensure 1.5m spacing.
- 13) Punching Navlight. Teams will carry a pack of disinfectant wipes. They will wipe their hands, and the punch with a wipe both before and after punching.
- 14) Passing other teams. One team is to step well off the path and let the other team pass.
- 15) 1.5m spacing is required between teammates unless they are a part of the same household.

Finish

- 16) Finish punch is done using the same method as other punches for early finishes.
- 17) Finishers who finish near the end of the race, there will be a volunteer with gloves and facemask who will hold the finish punch and punch your finish.
- 18) You will then proceed to other volunteers (also with gloves) who will cut off your wristband readers and put them in a zip lock bag.
- 19) There will be no food or presentations. Please leave once you have recovered enough to drive safely.
